

ESN modules to link in and enhance other management systems already in place

Risk control toolbox

Select tools based on school needs:
e.g. excursions, chemicals, plant & equipment, violence, contractors, traffic, others

Training suite content

Select content based on school needs:
(e.g. e-learning, hazard and risk-based snapshots & packages)
+/- any-training records on the go

Emergency management toolbox

Select tools, based on school needs, from:
emergency preparedness, training, prevention, response, recovery, review & improvement tools & resources

Select and draw from customised ESN modules to enhance school safety or compliance systems in place

Dynamic safety reports, records & review module

Select online forms to enable easier safety reporting and review:
(e.g. hazard & risk, incident & injury, training, maintenance, others)
with records straight to school registers and management panel view

Safety audits & reports module

Select based on school needs and safety system stage:
(e.g. compliance, operating risk, system, school safety, fire)
with data straight to management reports & graphs
